reason refill viewer & unpacker

reason refill viewer & unpacker

thanks ta's matz as the name says it let's you unpack the refills, so people who like to use the sounds that are packed in the refills, but dont like to use reason, can now use refills too... ReFills can contain samples, loops and all of Reason's As the name says it let's you unpack the refills, so people who like to use the sounds that are packed in the refills, but dont like to use reason, can now use refills too... exe file is just sitting there When I try to open it, it says that there's no default app to open it with.. They just unpack them and use the wav files or the single reasonpatches The refillpacker does the opposite (obviously).. Its easy to use and compatible with all printer types and stationery already being used in your office.. it let's you make those refills, like i have refill packer but havent installed it, but what is this all about unpacker... and then you'll have to reinstall reason for windows on the virtual Pc partition.. thanks ta's matzPosted by John on Oct-25-2005 22:09:quote:Originally posted by mzvribulis hey guys, can you please explain the benefits of this as i dont know really what this is all about... 0, now I'm running the upgrade Reason 3 0 4 This is what I do: I unzip the file and a folder named 'Refillunpacker' is created on my desktop.

This tool is NOT a commercial product Rather its a simple tool that some kind soul took the time to finally figure out... 2 I open the'Refillunpacker' folder and also open a second finder window 3 I drag the... Posted by lyoun11 on Oct-19-2005 16:53:Will this work on Apple computers as well?Posted by HaZZa on Oct-20-2005 11:10:WOW i to waited long for this, you and the author earn my respect!! many many many many thanks!!!!Posted by Reactance on Oct-20-2005 14:08:yeah ! Finally,ive been waiting way too long for this.. Are those synths presets, wav samples, or both? Posted by Storyteller on Oct-17-2005 14:28:indeed a combination of stuff, all kinds of presets and wav files Posted by Thoiso on Oct-17-2005 17:06:this guy who figured it out can make a fortune with his program if he wants toPosted by ronk on Oct-17-2005 17:19:finally! thanks!Posted by aquila on Oct-17-2005 23:12:shit... sorry to bust your bubble here EXE files will not open on ANY mac computer Ive got a powerbook too, so unless they come up with a mac version of this.

Thanks for the post !Posted by DigiNut on Oct-20-2005 20:57:quote:Originally posted by lyoun11 Will this work on Apple computers as well?
